## FROM OUR MISSIONARY

Thank you for your faithfulness. 2020 has been a challenge for us. Before Christmas we had two funerals. Then we contracted the COVID19 virus and are still sick with all the after affects. When Melanie got home from Bible College she got COVID. Thank the Lord for people and churches that pray for us. None of our church people got sick from us. We have seen people saved/lives transformed in spite of mandatory lockdowns. Had Teen Camp-Many gave their lives to the Lord. We must continue forward. So many Mexicans have died this year that they ran out of death certificates. Hearts are open and there is great opportunity that we must go through with your help. We love you and we are so thankful for you and your sacrifices to keep us on the Mission Field!
